Latest Generation Upgrade Solutions

Our pumps operate in the harshest of environments and regular maintenance ensures a long-life of trouble-free operation. Upgrades to the latest designs can improve performance to almost new.

Maximise uptime and minimise maintenance time with our service engineers and maintenance facilities, or with your own staff and our service centres.

RMI modules and kits are specifically designed to help you to keep your pump running at optimum performance.

One Stop Maintenance For Maximised Uptime

Our range of kits have been designed to ensure our pump mechanisms can quickly and easily be replaced, upgrading all key components at the same time, reducing the need for repeat maintenance strip downs and maximising valuable uptime.

Latest Specification Upgrades

As a market leading innovative engineering company, RMI constantly improves the quality, reliability and performance of our products by utilising state-of-the-art design, materials and technology.

All of our maintenance kits contain the latest components of the highest specification to give you complete peace of mind that when you overhaul your pump, you'll be doing much more than replacing like for like. You will upgrade your pump, increasing reliability and performance to today's high performance standards.

Reduced Spares Stock Holding

The convenience of maintenance kits means the right set of components are on hand, reducing potential delivery delays and significantly reducing your spare part inventory holding.

Maintenance Kit Benefits

- Convenient combination modules and kits for quick and easy maintenance/repair
- One stop maintenance
- Maximised available uptime
- Genuine RMI replacement parts
- Latest generation components
- Increased reliability and performance
- Reduced spares component stock holding

Full details of the maintenance kits to suit your pump are in the product operation and maintenance manual or can also be obtained via your local sales representative.

Service Structured To Suit You

RMI also offer comprehensive service support solutions to suit your specific site needs.

On Site Set-Up And Commissioning

One of our highly skilled engineers help set up and commission your equipment to ensure it operates at maximum performance and efficiency right from day one.

On/Off Site Training

We provide full training to site engineers to ensure they can operate the equipment safely and perform routine maintenance.

Routine Health Checks And Monitoring

RMI offer both one off maintenance visits and annual service contracts that can be tailored to suit individual site needs and budget.

We offer advice on performance management to enable planned, predictive maintenance to ensure system reliability and maximise available uptime.

Scheduled Overhauls And Repairs

To maintain the effectiveness and longevity of your pump, we recommend a fully scheduled maintenance plan to keep it working at peak performance.

Our engineers can assist with on site upgrades or we have conveniently located service centres where your equipment can be maintained off site. Full strip down reports and detailed quotations with a statements of works to be carried out are issued as standard, giving you complete control of costs at all times.

Service Benefits

- Tailored service solutions to suit individual site needs and budget
- Original manufacturer service and support
- Highly skilled, expert technical service engineers
- Scheduled predictive maintenance to maximise system reliability and uptime
- Guaranteed response times
- Detailed reports, quotations and schedules of work
- Genuine, latest generation RMI spare parts

Emergency On Site Repairs

Our team of service engineers can be on call for on site emergency repairs.

Full Equipment Upgrade Advice

We generally recommend a full pump and system upgrade at 72 months. Our expert team of engineers can undertake a full on-site assessment of your equipment needs and offer technical recommendations to enhance performance and reliability.

To find out more on our dedicated Service Support Packages, please visit www.rmipsl.com or call our local RMI office.
